Cautionary Statement

The following presentation includes forward-looking statements. These statements relate to future events, such as anticipated revenues, earnings, business strategies, competitive position or other aspects of our operations, operating results or the industries or markets in which we operate or participate in general. Actual outcomes and results may differ materially from what is expressed or forecast in such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that may prove to be incorrect and are difficult to predict such as our ability to complete the sale of our announced dispositions on the timeline currently anticipated, if at all; the possibility that regulatory approvals for our announced dispositions will not be received on a timely basis, if at all, or that such approvals may require modification to the terms of our announced dispositions or our remaining business; business disruptions during or following our announced dispositions, including the diversion of management time and attention; our ability to liquidate the common stock issued to us by Cenovus Energy Inc. as part of our sale of assets in western Canada at prices we deem acceptable, or at all; the ability to deploy net proceeds from our announced dispositions in the manner and timeframe we currently anticipate, if at all; operational hazards and drilling risks; potential failure to achieve, and potential delays in achieving expected reserves or production levels from existing and future oil and gas development projects; unsuccessful exploratory activities; difficulties in developing new products and manufacturing processes; unexpected cost increases or technical difficulties in constructing, maintaining or modifying company facilities; international monetary conditions and exchange rate fluctuations; potential liability for remedial actions under existing or future environmental regulations or from pending or future litigation; limited access to capital or significantly higher cost of capital related to illiquidity or uncertainty in the domestic or international financial markets; general domestic and international economic and political conditions, and changes in tax, environmental and other laws applicable to ConocoPhillips’ business; and other economic, business, competitive and/or regulatory factors affecting ConocoPhillips’ business generally as set forth in ConocoPhillips’ filings with the Securities and Exchange Commission (SEC). We caution you not to place undue reliance on our forward-looking statements, which are only as of the date of this presentation or otherwise indicated, and we expressly disclaim any responsibility for updating such information.

Use of non-GAAP financial information – This presentation may include non-GAAP financial measures, which help facilitate comparison of company operating performance across periods and with peer companies. Any non-GAAP measures included herein will be accompanied by a reconciliation to the nearest corresponding GAAP measure either within the presentation or on our website at www.conocophillips.com/nongaap.

Cautionary Note to U.S. Investors – The SEC permits oil and gas companies, in their filings with the SEC, to disclose only proved, probable and possible reserves. We use the term “resource” in this presentation that the SEC’s guidelines prohibit us from including in filings with the SEC. U.S. investors are urged to consider closely the oil and gas disclosures in our Form 10-K and other reports and filings with the SEC. Copies are available from the SEC and from the ConocoPhillips website.
3Q17 Summary – Strong Momentum Underway

**Strategic**

- Transformative reset achieved
  - Closed San Juan and Panhandle dispositions; expect >$16B of asset sales in 2017
  - Paid down $2.4B of debt; expect <$20B debt by YE 2017; received credit rating upgrade
  - Repurchased $1B of shares; on track for $3B share buybacks by YE 2017

**Financial**

- Profitable and cash flow neutral year-to-date at <$50/bbl\(^1\)
  - $0.2B adjusted earnings; $0.16 adjusted EPS
  - $1.1B 3Q17 CFO\(^2\); $9.6B ending cash\(^3\)
  - $4.5B YTD CFO\(^2\) exceeds capital and dividends by $0.4B
  - Reduced adjusted operating costs by 15% year-over-year

**Operational**

- On track to deliver or exceed 2017 operational targets
  - Production of 1,202 MBOED; 19% production per debt-adjusted share growth\(^4\) and 1.4% underlying growth\(^4\) year-over-year
  - Successfully completed APLNG two-train lenders’ test; released project financing loan guarantee
  - Lowering full-year capital guidance to $4.5B

---

\(^1\) Cash flow neutral is defined as when cash provided by operating activities (CFO) covers capital expenditures & investments and dividends and profitable earnings are based on adjusted earnings, both on a WTI basis.

\(^2\) CFO is $1.1B and cash provided by operating activities is $1.1B, as operating working capital had a mismatch change. CFO, excluding operating working capital YTD change of $0.1B, is $4.5B and cash provided by operating activities is $4.6B.

\(^3\) Ending cash includes cash and cash equivalents of $6.9B and short-term investments of $2.7B.

\(^4\) Production per debt-adjusted share growth is calculated on an underlying production basis using ending period debt divided by ending share price plus ending shares outstanding. Underlying production growth excludes the full impact of closed or signed 2016 and 2017 dispositions. Adjusted operating costs, adjusted earnings and adjusted EPS are non-GAAP measures. A non-GAAP reconciliation is available on our website. Production excludes Libya.
3Q17 Performance – Focused on Profitability

Highlights

- Year-over-year adjusted earnings benefited from improved realized prices, depreciation expense, exploration expense, and disposition impacts.
- Realized prices improved 33% year-over-year and 9% sequentially.

3Q17 Adjusted Earnings ($MM)

<table>

9.6
- 3Q17 Ending Cash & Short-Term Investments

\(1\) Reduced due to $0.68 U.S. pension fund contribution

\(^1\) Beginning cash and short-term investments include cash and cash equivalents of $7.53B and short-term investments of $2.79B. Ending cash and short-term investments include cash and cash equivalents of $6.98B and short-term investments of $2.78B.

\(^2\) Total working capital includes $0.08B and $0.18B of working capital changes associated with operating activities and investing activities, respectively.
3Q17 YTD Cash Flow Neutrality – Focus on Free Cash Flow Generation

- CFO\(^1\) exceeded capital and dividends, including a reduction to CFO for a $0.6B U.S. pension fund contribution
- Continued progress on debt reduction; expect <$20B debt by YE 2017
- Repurchased shares of $2B; on track for $3B share buybacks by YE 2017

3Q17 YTD Marker Prices
- Brent $51.90/BBL
- WTI $49.41/BBL
- Henry Hub $3.17/MMBTU

Cash flow neutrality is defined as when cash provided by operating activities (CFO) covers capital expenditures & investments and dividends.

Free cash flow is cash provided by operating activities in excess of capital expenditures and investments required to maintain flat production, working capital changes associated with investing activities, and dividends paid.

\(^1\) CFO, excluding operating working capital change of $0.1B, is $4.4B and cash provided by operating activities is $4.4B.

\(^2\) Capital expenditures & investments and dividends include $3.3B of capital expenditures & investments and $1.0B of dividends.

\(^3\) Debt reduction and repurchase of company common stock include $6.6B of debt and $2.0B of repurchase of company common stock.
3Q17 Operating Highlights – Business Running Well

- 3Q17 production of 1,202 MBOED; underlying production\(^1\) growth of 1.4%

- Lower 48 big 3 unconventionalals running 12 operated rigs
  - 211 MBOED in 3Q17 vs. 213 MBOED in 2Q17 big 3 unconventionalals; includes 3Q17 hurricane impact of 15 MBOED
  - Eagle Ford volumes returned to pre-hurricane levels

- Record production achieved at Surmont in Canada

- APLNG performed at 110% of nameplate; 92 LNG cargos loaded YTD

- Completed turnarounds in Alaska and Europe

- Continued progress on conventional projects across portfolio

---

\(^1\) Underlying production year-over-year excludes the full impact of closed or signed 2016 and 2017 dispositions. Production excludes Libya. Big 3 unconventional includes Eagle Ford, Bakken, and Delaware.
2017 Outlook – Getting More for Less; Focus on Per-Share Metrics

**$4.5B**

2017 CAPITAL GUIDANCE

1,195 – 1,235 MBOED

4Q17 PRODUCTION GUIDANCE

1,350 – 1,360 MBOED

FY17 PRODUCTION GUIDANCE

**$4.5B** full-year capital guidance projected to deliver 17% production per debt-adjusted share growth

- Capital reduced by 10% from initial guidance
- Underlying production growth of 3% versus initial guidance of 0-2%

- Other drivers on track with prior guidance

- Strong momentum heading into Analyst & Investor Meeting on Nov. 8, 2017

---

17% production per debt-adjusted share growth

8% production per-share growth

3% underlying production growth

---

1. Production per debt-adjusted share growth is calculated on an underlying production basis using ending period debt divided by ending share price plus ending shares outstanding. Full year ending share price is using the closing price of $50.25 per-share on 10/20/17.

2. Production per-share growth is defined as underlying production, divided by ending common shares outstanding. Year-end 2016 common shares outstanding were 1,237 million shares, 3Q17 ending common shares outstanding were 1,186 million shares. 4Q17 includes a further $1.0 billion of share repurchases, which represent 19 million shares using the closing price of $50.25 per-share on 10/30/17 and assuming no other changes in common shares outstanding.

3. Underlying production excludes the full impact of closed or signed asset disposals. Guidance assumes Barnett transaction closes 4Q17.

4. 2015 and 2016 disposals include full impact of closed or signed asset disposals. Guidance assumes Barnett transaction closes 4Q17.

Production excludes Libya. Adjusted operating cost is non-GAAP measure. A non-GAAP reconciliation is available on our website.

1. Production per debt-adjusted share growth is calculated on an underlying production basis using ending period debt divided by ending share price plus ending shares outstanding. Full year ending share price is using the closing price of $50.25 per share on 10/20/17.
2. Production per-share growth is defined as underlying production, divided by ending common shares outstanding. Year-end 2016 common shares outstanding were 1,237 million shares, 3Q17 ending common shares outstanding were 1,196 million shares. 4Q17 assumes a further $3.0 billion of share repurchases, which represent 29 million shares using the closing price of $50.25 per share on 10/20/17 and assuming no other changes in common shares outstanding.
3. Underlying production excludes the full impact of closed or signed asset disposals and any other changes in underlying production.
4. 2016 and 2017 disposals include full impact of closed or signed asset disposals. Guidance assumptions Barret net transaction closes 4Q17.
5. All numbers exclude Libya, which produced 24 MBOED in 3Q17, 0 MBOED in 3Q16, and 9 MBOED in 4Q16.

19% production per debt-adjusted share growth
5% production per-share growth
1.4% underlying production growth
18% production per debt-adjusted share growth
10% production per-share growth
4% underlying production growth
Full-Year 2017 Guidance

- Full-year 2017 production: 1,350 – 1,360 MBOED
  - 4Q17 production: 1,195 – 1,235 MBOED
- Adjusted operating costs: $5.7B
- Capital expenditures: $4.5B
- DD&A: $7.0B
- Adjusted corporate segment net loss: $1.0B
- Adjusted exploration dry hole and leasehold impairment expense: $0.45B
## 2017 Annualized Net Income Sensitivities

</tbody>
</table>

\(^1\) WCS price used for the sensitivity represents a volumetric weighted average of Shipecan and Net Energy indices.

Pro forma figures are shown if the transactions were completed on Jan 1, 2017. Canada transaction closed 2017. San Juan and Panhandle closed in 3Q 2017. Barnett expected to close in 4Q 2017. The published sensitivities above reflect annual estimates and may not apply to quarterly results due to lifting/product sales differences, significant turnaround activity, or other unforeseen portfolio shifts in production. Additionally, the above sensitivities apply to a range of commodity price fluctuations as of October 25, 2017, but may not apply to significant and unexpected increases or decreases.
2017 Annualized Cash Flow Sensitivities

Consolidated Operations
($45-$65/BBL Brent)

- Crude:
  - **Brent/ANS**: $105-115MM for $1/BBL change
  - **WTI**: $50-60MM for $1/BBL change
  - **WCS**: $10-15MM for $1/BBL change

- Lower 48 NGL
  - **Representative Blend**: $10-15MM for $1/BBL change

- Natural Gas
  - **Henry Hub**: $35-45MM for $0.25/MCF change
  - **Int’l Gas**: $20-25MM for $0.25/MCF change

---

Equity Affiliates¹
($50-$65/BBL Brent)

- Expect distributions from all equity affiliates at >$50/BBL
- $1/BBL movement in Brent: $25-35MM

---

Net Cash Flow from Contingent Payment

- CA$6MM quarterly for every CA$1 WCS price above CA$52/BBL

---

¹ Representative of cash provided by operating activities (CFO) within equity affiliates, may not all be distributed. Assumes WCS moves proportionally to Brent. Contracted LNG with equity affiliates is subject to a 3-month pricing lag. Pro forma figures are shown as if the transactions were completed on Jan 1, 2017. Canada transaction closed 2Q17; San Juan and Panhandle closed in 3Q17. Barnett expected to close in 4Q17. The published sensitivities above reflect annual estimates and may not apply to quarterly results due to lift timing/product sales differences, significant turn around activity or other unforeseen portfolio shifts in production. Additionally, the above sensitivities apply to a range of commodity price fluctuations as of October 26, 2017, but may not apply to significant and unexpected increases or decreases.
