Bayu-Undan Infill Wells Project – Provision of Inspection and Surveillance Services for Subsea and Topside Hardware

ConocoPhillips is the operator of the Bayu-Undan Facility, which is located within the Timor Sea Joint Petroleum Development Area.

Pursuant to clause 10.1 of the Production Sharing Contract, ConocoPhillips is seeking expressions of interest from Companies capable of providing the referenced services to the Oil and Gas Industry who are a duly incorporated entity under the laws of República Democrática de Timor-Lesté or Australia and who meet all of the following requirements:

Minimum Requirements

- Previous experience in the provision of a comprehensive range of Inspection and Surveillance Services in support of procurement, manufacturing, fabrication, testing and delivery activities of primary Topside and Subsea hardware and structures in accordance with statutory regulations and the application of offshore oil and gas industry codes, standards and specifications. These Services will be required to be executed in ConocoPhillips' 3rd party supplier facilities at nominated worldwide locations.

The specific list of items for which the Inspection and Surveillance Services will be required is as follows:

SUBSEA HARDWARE
Subsea Wellhead Systems
Subsea Production System Christmas Tree c/w Production Choke and Tree Cap
Production Tubing Hangers
Diverless Connectors c/w Gooseneck
Electro Hydraulic Cobra Heads
Subsea Christmas Tree Mounted Controls Equipment
Subsea Umbilicals
Flexible Flowline and Jumpers
Subsea Valves

TOPSIDES HARDWARE
Manual Valves
Globe Valves
Mono-flanges
Hub Connectors
Pipe Bends and Reducers (including Duplex materials)
Transmitters
Fabrication of complex Pipe Spools and Supports (includes use of Duplex materials)

- Proven experience in the provision of inspection services including the documenting of evidence by means of inspection reports, inspection release certificates and endorsed Supplier records, to demonstrate that supplied materials and equipment meet stated requirements.
- Proposed inspection personnel resources must have the appropriate qualifications to conduct necessary inspection and surveillance and be proficient in skill sets such as, but not limited to, complex material qualification and production testing, dimensional control, welding (including welder qualification), Non-Destructive Testing (NDT) techniques, hydrostatic testing and witnessing of all Factory and Extended Factory Acceptance Testing (FAT/EFAT) and System Integration Testing (SIT) of various Subsea/Topside hardware items.

Companies who meet all of the above minimum requirements are invited to submit their written expression of interest by email or hand delivery no later than **22 September 2016** for the attention of Reinalda Pires, Purchasing Officer.

Email address: BayuUndanEOI@ConocoPhillips.com

Office address: ConocoPhillips Timor-Lesté Pty Ltd, Rua Bairro Gomes No 40, Bidau Lecidere, Dili, Timor-Lesté.

"The Timor Sea Treaty between the Government of Timor-Lesté and Australia and the Production Sharing Contracts require that in providing these goods/services, all interested companies shall give preference to the employment of Timor-Lesté nationals and permanent residents, having due regard to safe and efficient activities and good oilfield practice."
