

# Worldwide Operations and Locations

As of Dec. 31, 2022

## The World's Largest Independent E&P Company

ConocoPhillips is one of the world's leading independent exploration and production (E&P) companies based on both production and reserves, with a globally diversified asset portfolio.

The company explores for, produces, transports and markets crude oil, bitumen, natural gas, natural gas liquids and liquefied natural gas on a worldwide basis. Key focus areas include safely operating producing assets, executing major development projects and exploring for new resources in promising areas.

Included in our portfolio are legacy producing assets in North America, Europe, Asia and Australia; North American tight oil and oil sands; large-scale projects in several nations; and a focused exploration program.

Headquartered in Houston, Texas, ConocoPhillips had operations and activities in 13 countries, \$94 billion of total assets and approximately 9,500 employees at Dec. 31, 2022. For more information, go to [www.conocophillips.com](http://www.conocophillips.com).

## 2022 PRODUCTION BY REGION

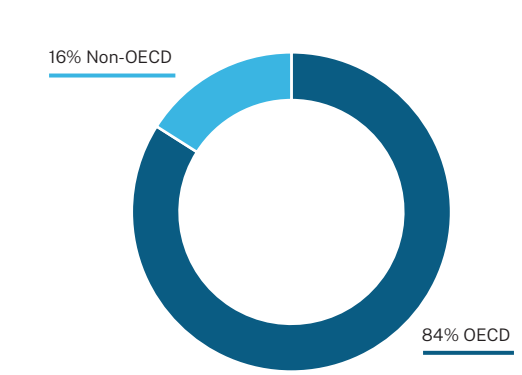

## 2022 PRODUCTION MIX 1,738 MBOED

## YEAR-END 2022 PROVED RESERVES 6.6 BBOE

## YEAR-END 2022 PROVED RESERVES 6.6 BBOE

Natural gas production and resources targeted toward liquefied natural gas are depicted as LNG. OECD refers to member countries of the Organisation for Economic Co-operation and Development.

Definition of resources: ConocoPhillips uses the term "resources" in this document. The company estimates its total resources based on a system developed by the Society of Petroleum Engineers that classifies recoverable hydrocarbons into six categories based on their status at the time of reporting. Three (proved, probable and possible reserves) are deemed commercial and three others are deemed noncommercial or contingent. The company's resource estimate encompasses volumes associated with all six categories. The SEC permits oil and gas companies, in their filings with the SEC, to disclose only proved, probable and possible reserves. We use the term "resources" in this Fact Sheet that the SEC's guidelines prohibit us from including in filings with the SEC. U.S. investors are urged to consider closely the oil and gas disclosure in our Form 10-K and other reports and filings with the SEC.
