Cautionary Statement

The following presentation includes forward-looking statements. These statements relate to future events, such as anticipated revenues, earnings, business strategies, competitive position or other aspects of our operations, operating results or the industries or markets in which we operate or participate in general. Actual outcomes and results may differ materially from what is expressed or forecast in such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that may prove to be incorrect and are difficult to predict such as operational hazards and drilling risks; potential failure to achieve, and potential delays in achieving expected reserves or production levels from existing and future oil and gas development projects; unsuccessful exploratory activities; difficulties in developing new products and manufacturing processes; unexpected cost increases or technical difficulties in constructing, maintaining or modifying company facilities; legislative and regulatory initiatives addressing global climate change or other environmental concerns; investment in and development of competing or alternative energy sources; disruptions or interruptions impacting the transportation for our oil and gas production; international monetary conditions and exchange rate fluctuations; changes in international trade relationships, including the imposition of trade restrictions or tariffs on any materials or products [such as aluminum and steel] used in the operation of our business; our ability to collect payment when due under our settlement agreement with PDVSA; our ability to collect payments from the government of Venezuela as ordered by the ICCID; our ability to complete our announced dispositions or acquisitions on the timeline currently anticipated, if at all; the possibility that regulatory approvals for our announced dispositions or acquisitions will not be received on a timely basis, if at all, or that such approvals may require modification to the terms of our announced dispositions, acquisitions or our remaining business; business disruptions during or following our announced dispositions or acquisitions, including the diversion of management time and attention; our ability to liquidate the common stock issued to us by Convenus Energy Inc. at prices we deem acceptable, or at all; the ability to deploy net proceeds from our announced dispositions in the manner and timeframe we currently anticipate, if at all; our ability to develop our portfolio within expected capital levels; potential liability for remedial actions under existing or future environmental regulations or from pending or future litigation; the impact of competition and consolidation in the oil and gas industry; limited access to capital or significantly higher cost of capital related to illiquidity or uncertainty in the domestic or international financial markets; general domestic and international economic and political conditions, and changes in tax, environmental and other laws applicable to ConocoPhillips’ business; disruptions resulting from extraordinary weather events, civil unrest, war, terrorism or cyber attack; and other economic, business, competitive and/or regulatory factors affecting ConocoPhillips’ business generally as set forth in ConocoPhillips’ filings with the Securities and Exchange Commission (SEC). We caution you not to place undue reliance on our forward-looking statements, which are only as of the date of this presentation or as otherwise indicated, and we expressly disclaim any responsibility for updating such information.

Use of Non-GAAP Financial Information – This presentation may include non-GAAP financial measures, which help facilitate comparison of company operating performance across periods and with peer companies. Any non-GAAP measures included herein will be accompanied by a reconciliation to the nearest corresponding GAAP measure either within the presentation or on our website at www.conocophillips.com/nongaap.

Cautionary Note to U.S. Investors – The SEC permits oil and gas companies, in their filings with the SEC, to disclose only proved, probable and possible reserves. We may use the term "resource" in this presentation that the SEC’s guidelines prohibit us from including in filings with the SEC. U.S. investors are urged to consider closely the oil and gas disclosures in our Form 10-K and other reports and filings with the SEC. Copies are available from the SEC and from the ConocoPhillips website.

1. Full-year underlying production excludes Libya and reflects the impact of closed acquisitions and dispositions with an assumed close date of Jan. 1, 2018. Underlying production not adjusted for the announced U.K. divestiture agreement.
2. Production per debt-adjusted share growth is calculated on an underlying production basis using ending-period debt divided by ending share price plus ending shares outstanding. 2019 ending common shares outstanding were 1,110 million shares. 2015 assumptions are additional $1.13 of share repurchases, representing 25 million shares using the closing price of $55.75 per share on July 15, 2019 and assuming no other changes in common shares outstanding.
3. Capital expenditures guidance excludes approximately $0.3 billion for closed and announced acquisitions, as well as obligations under the recently announced production sharing contract extension awarded by the Government of Indonesia. Free cash flow is non-GAAP term and is defined on our website.

Highlights

- Sequential adjusted earnings were impacted by lower LNG and gas prices and lower volumes, largely offset by higher crude prices.
- Year-over-year adjusted earnings decreased as lower realizations more than offset higher volumes.

Guidance excludes special items and, with the exception of DD&A, impacts from the announced UK divestiture agreement. Production excludes Libya. Capital expenditure guidance excludes approximately $0.3 billion for closed and announced acquisitions, as well as obligations under the recently announced production sharing contract extension awarded by the Government of Indonesia. Adjusted operating cost, adjusted corporate segment net loss, and exploration dry hole and leasehold impairment expense are non-GAAP measures. Non-GAAP definitions and reconciliations are available on our website.
2019 Annualized Net Income Sensitivities

- **Crude:**
  - **Brent/ANS:** ~$155-175MM for $1/BBL change
  - **WTI:** ~$30-40MM for $1/BBL change
  - **WCS:** ~$10-15MM for $1/BBL change
    - Does not incorporate contingent payment of CA$6MM quarterly for every CA$1 WCS price above CA$52/BBL

- **North American NGL**
  - **Representative Blend:** ~$12-17MM for $1/BBL change

- **Natural Gas**
  - **Henry Hub:** ~$30-40MM for $0.25/MCF change
    - Does not incorporate contingent payment of $7MM monthly if average Henry Hub price is at or above $3.20/MMBTU (capped at $300MM)
  - **International Gas:** ~$15-20MM for $0.25/MCF change

---

1. WCS price used for the sensitivity represents a volumetric weighted average of Surinam and Net Energy Indices.
2. The published sensitivities above reflect annual estimates and may not apply to quarterly results due to lift timing/product sales differences, significant turnaround activity or other unforeseen portfolio shifts in production. Additionally, the above sensitivities apply to a range of commodity price fluctuations, but may not apply to significant and unexpected increases or decreases.
2019 Annualized Cash Flow Sensitivities

Consolidated Operations
($45-$75/BBL WTI)

- Crude
  - Brent/ANS: \(\sim$155-165\)MM for $1/BBL change
  - WTI: \(\sim$40-50\)MM for $1/BBL change
  - WCS: \(\sim$15-20\)MM for $1/BBL change

- Lower 48 NGL
  - Representative Blend: \(\sim$15-20\)MM for $1/BBL change

- Natural Gas
  - Henry Hub: \(\sim$40-50\)MM for $0.25/MCF change
  - Int’l Gas: \(\sim$15-20\)MM for $0.25/MCF change

Equity Affiliates\(^1\)
($45-$75/BBL Brent)

- Expect distributions from all equity affiliates at $>45/BBL Brent
- Brent: \(\sim$30-40\)MM for $1/BBL change
- Distributions may not be ratable each quarter

Net Cash Flow from Contingent Payments\(^2\)

- CA$6MM quarterly for every CA$1 WCS price above CA$52/BBL
- $7MM monthly if average Henry Hub price is at or above $3.20/MMBTU (capped at $300/MM)

---

\(^1\) Representative of CFO within equity affiliates, may not all be distributed. Contracted LNG within equity affiliates is subject to a 5-month pricing lag.

\(^2\) Contingency payments are recognized as disposition proceeds. San Juan contingency paid annually in year following recognition.

The published sensitivities above reflect annual estimates based on full-year average production and may not apply to quarterly results due to lift timing/product sales differences, significant turnaround activity or other unforeseen portfolio shifts in production. Annual results can also differ for the same reasons. Additionally, the above sensitivities apply to a range of commodity price fluctuations, but may not apply to significant and unexpected increases or decreases. Assumes a fixed differential between WTI/Brent and that all markers move with WTI/Brent.
