COVID-19 Pre-Screening Questionnaire - GCS

PRE-ACCESS

Prior to coming to the office, everyone should assess the following considerations each day. Your temperature will be confirmed upon arrival; anyone with a temperature higher than **38.0 degrees Celsius** is considered to have a fever.

If you answer “yes” to any of the following questions, please contact your leader and do not come into the office.

- 1) Have you, or anyone in your household been outside of Canada in the past 14 days?
- 2) Have you, or anyone in your household been in close contact with a confirmed or probable case of COVID-19 in the past 14 days?
- 3) Have you tested positive for COVID-19 within the last 10 days?
- 4) Have you had any of the following symptoms that started less than 10 days ago, even if you are feeling fine now (**cough, runny nose, shortness of breath, fever, or sore throat**)? Note: If you tested for COVID-19, with negative results, after developing symptoms, AND no longer have the symptoms, then answer “no”.
- 5) Do you **CURRENTLY** have any of the following symptoms, not related to a chronic illness (**chills, painful swallowing, stuffy nose, headache, muscle/joint fatigue, feeling unwell/fatigued/severe exhaustion/nausea/vomiting/diarrhea, loss of sense of smell or taste, conjunctivitis (pink eye)**)

* Close Contact:

1. Providing care for the individual, including health care workers, family members or other caregivers, or who had other similar close physical contact with the person without consistent and appropriate use of personal protective equipment **OR**
2. Living with or otherwise had close prolonged contact (within 2 meters) with the person while the person was infectious with any respiratory illness **OR**
3. Having direct contact with infectious bodily fluids of the person (ex: was coughed or sneezed on) while not wearing recommended personal protective equipment **OR**
4. Close proximity work or interaction occurred (such as working within 6 feet of each other for longer than 15 minutes).

Consent and Disclosure Agreement due to the Circumstances and Impact of COVID-19

PRESCREEN

In the interests of protecting the health and safety of all personnel at ConocoPhillips (COP) offices during the COVID-19 pandemic, all individuals who enter our offices will be required to comply with Company and government directed screening and protective measures as they pertain to COVID-19.

By accessing our offices you are agreeing to and will comply with the following:

- 1) I will self-assess for all COVID-19 like **symptoms** and contact my leader, should I become sick at home or in the office.
- 2) If directed by provincial health authorities, I will undergo COVID-19¹ **testing**.
- 3) I will disclose all COVID-19 **test results** to the Occupational Health designate at ConocoPhillips.
- 4) I will complete the '**Close Contact Log**' should I present with COVID-19 symptoms which is used to help identify and manage those persons that may be exposed to COVID-19.
- 5) If required, I will self-isolate as mandated by Government of Canada and provincial health authorities.
- 6) I understand that certain personal & medical information as it pertains to COVID-19 testing and results may be exchanged between COP Occupational Health professionals, COP Leadership and other individuals, agents, and consultants acting on behalf of ConocoPhillips. I consent to the collection, use and disclosure of such information to the extent necessary to enable COP to manage COVID-19 at the office. Confidentiality will be maintained to greatest extent possible, while still allowing for operational management of COVID-19 cases and symptoms.

NOTE: Occupational Health and those required to have this personal information will share the minimum amount of information necessary to ensure your health and safety, and the health and safety of those at site.

Thank you for your cooperation in helping keep our site safe and preventing the spread of COVID-19.

¹ Any test administered by a health care provider or otherwise intended to help determine the existence of a COVID-19 infection or anti-bodies related thereto, or any other test relating to COVID-19
