ConocoPhillips Offers

- Challenging assignments
- Supportive mentorship
- Competitive benefits
- Diverse perspectives
- Engaging activities
- Professional development
- Networking experiences
- Leadership interactions
- Community outreach
- An innovative culture

Engineering opportunities in Exploration and Production are vast: roles within E&P include drilling, completions, production, facilities and reservoir engineering positions. From unconventional and conventional focused operations around the Lower 48 states, conventional focused operations in Alaska, and our global headquarters in Houston, your options are extensive.

Apply Now

Applying for an internship or full-time position? Follow these steps:

- 1** Visit <https://careers.conocophillips.com/universitystudent>
Active university job listings will be displayed.
