OIL PIPELINE TARIFF FILING

Honorable Kimberly D. Bose, Secretary Federal Energy Regulatory Commission 888 1st Street N.E., Room 1-A Washington, D.C. 20426

Re: ConocoPhillips Transportation Alaska, Inc. FERC Tariff No. 19.11.0

Dear Ms. Bose:

In accordance with the requirements of the Interstate Commerce Act ("ICA") and the rules and regulations of the Federal Energy Regulatory Commission ("FERC"), ConocoPhillips Transportation Alaska, Inc. ("CPTAI") submits the following tariff on thirty two (32) days' notice to be effective July 1, 2020:

• F.E.R.C. No. 19.11.0, Local Rates (cancels F.E.R.C. No. 19.10.0)

F.E.R.C. No. 19.11.0 applies to the interstate transportation of petroleum on the Trans Alaska Pipeline System ("TAPS") between Prudhoe Bay, Alaska and Valdez Marine Terminal, Alaska, over CPTAI's share of TAPS capacity. CPTAI's current rate for interstate transportation between these points is \$5.392 per barrel. Tariff No. 19.11.0 is filed to increase that rate to \$5.756 per barrel. The new rate set forth in FERC Tariff No. 19.11.0 is being filed pursuant to the Settlement Agreement Establishing Variable Tariff Methodology for the Trans Alaska Pipeline System ("VTM Settlement Agreement"), which was approved by the Commission in *ConocoPhillips Transportation Alaska, Inc.*, 162 FERC ¶ 61,180 (Feb. 28, 2018).

Pursuant to Section I-4(a) of the VTM Settlement Agreement, attached is a print out of the rate model showing the calculation of the Maximum Allowable Interstate Rate ("MAIR") for the upcoming Annual Rate Period from July 1, 2020 through June 30, 2021. The print out of the rate model is in the same format as that shown in Exhibit F of the VTM Settlement Agreement. Please note that any values shown in the print out of the rate model for future years were not used in the calculation of the MAIR for the 2020-2021 Annual Rate Period and have no impact on that calculation. Such values will be updated in future years' MAIR filings to reflect thencurrent data. Rates for prior years are also not shown.
